UPBUILD MERCHANT

Will the Republican Party, Says Hon. Edward Payson Brown Last Night, in an

ELOQUENT AND EFFECTIVE

Address Before an Enthusiastic Gathering of Citizens at Arion Hall.

One of the most effective addresses of he campaign was that made by Hon. Edward Payson Brown, of New York, gathering of citizens at Arion hall last on the Republican advocacy of the upbuilding of our merchant marine and marshalled facts and figures that were convincing and self-evident. The peech was a vote-maker and will add argely to the Republican majority in this city. The speaker was escorted to the hall by the Rough Rider regiment, who were accorded the usual enthusiastic reception along the streets.

Dr. W. H. Zimmer was introduced as purchase, which came from spain. (Applause.)

The Porto Ricana have published to the world twenty-five reasons for which they blessed America and thanked heaven. We are building a macadamized road around that island at the cost of \$10,000 a mile. We are establishing schools there as we have here. Do the Porto Ricans complain? Not a word. It is only Mr. Bryan and his followers. chairman of the meeting. He made a short speech, touching briefly on the

short speech, touching briefly on the issues and introduced the speaker of the evening, Hon. Payson Brown, of New York, who was vigorously applauded as he stepped to the front of the stage to address the audience. He began by saying that the policy of the Republican party had made this state what it is. The Republican party had always been a grout progressive party. When it came into existence in 1860 the issue before this country was whether the labor of the country should be a slave labor or a free labor. A man

whether the labor of the country should be a slave labor or a free labor. A man was piaced at the head of the government that Mr. Bryan and his followers cannot find enough words of praise to say of him. (Applause.)
Mr. Brown then took up the tariff. We are so confident of the effect of the protective tariff on this country to-day that we need only stidy an article to find whether we could produce it in this country or not. If we find we cannot manufacture it we admit it free of any duty.

In 1892 we were more prosperous than we were at any time up to that nour. We had twenty millions of wage carners. They had fixed incomes, That fixed income made an average of \$1.65 per day and that was 65 per cent greatper day and that was 65 per cent great-er than the average of wages in 1859. In twenty years we had progressed 65 per cent. We had a presidential election in that year. The Democratic party at that time told us that if we elected them they would give us such a degree of prosperity as they had never exper-lenced before under this tariff reform. What happened? Mr. Cleveland was elected President of the United States because he said that under no condi-

What happened? Mr. Cleveland was elected President of the United States because he said that under no condition would he allow any diminution of industrial conditions.

The first thing Mr. Cleveland did was to repeal the McKinley bill. In 1894 the Wilson-Gorman tariff bill passed. What happened in this state of West Virginia. The wage earners wages began to decrease; the price of your wool went down and hundreds were thrown out-of employment. The total reduction in wages up to July 1, 1895, was 45 per cent. This was the money condition in 1895. What was the money condition for our import trade? We imported thousands of pounds of wool more than had been shipped here before. Your railroads went into the hands of receivers. There was a general paralysis of business in every avenue of human industry.

The appeal came up from every part of the United States to the great Republican party. Mr. McKinley, after his election, convened Congress on March 41, and the Dingley bill was passed. In 1895 the farmer's wheat and corn fell in price because there were \$,000,000 of wage earners who were not eating their annual ration. In 1897 prices began to go up. Wheat went up to \$1 a bushel and every other food product went up, The men of this country were not only working, but they were eating. (Applause.)

the advent of Grape-Nuts Into her kogo up. Wheat went up to \$1 a bushel and every other food product went up. The men of this country were not only working, but they were cating. (Applause.)

To-day we are prosperous. We are 12,000,000 of wage earners; we are 23,000,000 of wage earners. They are not carning \$138,000,000 a week; they are averaging more than \$246,000,000 at week; they are averaging more than \$246,000,000 at week. We have more than one-half of all the railroad mileage of the world. The American wage earner with his annual wage could have bought all the railroad side of the United States and have more than \$8,000,000 eft.

Republican Record.

We are prosperous and happy. We are in the milest of another campaign.

The Republican are the second of the milest of another campaign.

The Republican are the second of the milest of another campaign.

The Republican are the second of the milest of another campaign.

The Republican party does not hesitate to ask you to look back on its record. They have three great new problems which will make this nation the great-

my burn.'
"Now I decided I must have some Grape-Nuts myself, for if it was good for tired brain and burns and broken arms, it surely ought to benefit my broken nerves; so I had a package sent up to the house and have had some Grape-Nuts every morning for breakfast since, with this result, that nature's sweet restorer, balmy sleep, came back to me, my nerves somehow quieted down and life took on a different aspect. The old tired, sleepy feeling has gone and the air seems charged with buoyancy.
"I can as easily walk ten blocks as one, difficult duties are easily accomplished and all the burdens of life are lightened by the astionishing power of good and well selected food. I have taken no modicine during this time, therefore I can only attribute the agreeable change to the sure help that comes daily from the use of this remarkable food." Jennie May Summer, 63 Abbott Avenue, Waterbury, Conn. which will make this nation the greatest that ever was. We must have the
Nicaragua canal. When we get that
canal a boat can leave New York, cross
the Pacific occan and get there five days
before a British ship. The Yankee will
never be satisfied unless he can beat the
British by these five days. (Cheers.)
We must do our share of the carrying trade of the world. There was a
time when our ships carried 95 per cent
of all our imports and exports. Last
year we carried only 6 per cent. In 1856
we hadn't even the sense to lay our
own eggs. (Laughter.) Mr. McKinley
put a tariff on eggs and the American
hen felt encouraged and supplied us
with all our own eggs. (Laughter.) If
a hen can do a thing like that, what
ought not we to do? If we realize there
is money in shipping, can we not reach
out and get more than 1 per cent of it?
Mr. Brown made a strong argument
for the building of our merchant marine. He produced figures showing how
millions of dollars had been paid alien
ships for carrying our merchandise on
the high seas. We exported more than
we imported and notwithstanding the
fact that 22 per cent of our commerce
was carried in foreign ships we had

we imported and notwithstanding the fact that \$2\$ per cent of our commerce was carried in foreign ships we had money to lend foreign nations.

We have now over eleven hundred millions of gold in this country. We have more gold in this country than any other government except England. Give to the American ship her share of the carrying trade of the world and we will bring the world's gold to the United States. With the balance of trade in gar favor this result would be inevtake them to the old catablished firm of F. Striff & Son, where they can be imade to look equal to new at a very small cost. Any kind of repairing done, such as binding, relining, new veivet collars, and, in fact, what repairing to wanted on them. Don't wait until cold weather is here, but take them now, as they can be done on short notice, to

F. STRIFF & SON,

1148 Market Street.

Wheeling, W. Va. ted states. With the balance of trade in gar favor this result would be inev-itable. New York would become the financial centre of the world. (Ap-plause.)

The Young Man.

We are told by Mr. Bryan that there a no longer an opening for a young man in the United States. When the American ship enters into the future American ship enters into the future that the Republican party is planning for her, there will be plenty of opportunity for the young man of this country to travel on the seas and enter foreign ports. After the war in 1817. England came to our Democrate friends and asked them to repeal the discriminating duty act. They said they had been whitped and they were ready to be good. When a state of war broke out we had 67 percent of our shipping in our bands. At the end of the civil war we had only 27 per cent left and now we have only a per cent.

the end of the civil war we had only 27
per cent left and now we have only 8
per cent.
There is money in shipping, just as
there is money in everything that a

Whodshon, the halter, at 106f Main
street, has a complete line of latest fall
styles, in stiff and soft. Satisfaction
marganized. All halts are made in his
own factory.

THE REALM OF JUSTICE.

protective tariff protects. (Applause.) There is money in pottery, money in farming, money in everything produced by the hand of the laborer. When you buy any product of Europe you pay the price of the product, plus the freight, \$45,000,000 was the amount we paid in freight last year. Look at the money that would remain in this country if we had only 25 per cent of that carrying trade. In Squire Rogers' court yesterday, the cases of James Bundy and John They were charged with robbing Mrs. Imes of 14, in the Second ward market, last Saturday, and with stealing a pair of spectacles from Ben Jacobs' pawn shop. They were given \$10 and costs on each of these charges and in default of payment were remanded to Jail for sixty days, thirty days on each charge. had only 25 per cent of that carrying trade.

Mr. Bryan says there is great objection to this policy. They say it is imbued with militarism and commercialism. They say we are saturated with trusts. Now we have trusts and if you want to get rid of them put the Democratic party in power and there will not be enough mon to get together to make a trust. I will not deny that some trusts are bad. There are two and one-half millions of our wage earners that are only earning \$1 a day. We need a uniform wage, if the man in one state is paid less for the same work than a man in another state, he has a right to object.

The Standard Oil Company was a great trust; it is now a great corpora-

Howard Reynolds was arrested on warrant sworn out by John Amlen, charging him with assault and battery, Officer Robrecht made the arrest. The evidence did not sustain the charge and the prisoner was released.

In Squire Larue's court Robert Wil-liamson was fined \$1 and costs on a profaulty warrant sworn out by Mrs. Oliver.

James Sheets was fined \$10 and costs on a warrant sworn out by Albert Wuetrich, the South Chapline street tailor, charging him with assault and battery. He went to fall for ten days in default.

NO EPSTEIN HERE.

Dispatch Received at Police Headquarters, But No Clue Found.

The Standard Oil Company was a great trust; it is now a great corporation. Mr. Bryan says he will destroy all trusts. After denouncing all monopolies Mr. Bryan said he was willing that the inventor should have a monopoly of his own invention. If he had thought a little further he would have allowed Mr. Jones to have a monopoly of the cotton bale trust. (Laughter, if he had thought a little further he would have concluded to allow Mr. Croker to have a monopoly of the ice trust. (Laughter and applause.)

The Philippines.

Mr. Ervan Says we are exturated. Yesterday a dispatch was received a police headquarters addressed to "Eppolice headquarters addressed to "Ep-stein," conveying the information of the death of a daughter, and despite a diligent search no trace of any family of that name can be found hers. There is a family at West Liberty of that name, but when asked about the mat-ter, said they knew nothing whatever concerning it. The dispatch read as follows:

follows:
CHICAGO. Oct. 28.—Chief of Police,
Wheeling—Epstein: Have you a daughter living in Chicago? If so wire at
once: Shy's dead. She's dead. CHARLES FULLLER.

Prayer meeting Wednesday evening. Scats free. All welcome. his followers.

They complain of Cuba. They say we are after those offices down there. These offices number just 224. Eighty-six per cent of these are filled by native islanders. We have organized over 2,000 schools and employed over 2,000 school teachers. We have spent thousands of dollars for school books. The Cubans on bended, knee have thanked the American people for all they have done for them. This is not paid for by the American citizen, but out of the revenues of the Island.

Mr. Bryan says our conduct in the Islands is inspired by commercialism. He thinks we ought to teach them to be Christians and then not sell them goods. Can we make the Filipino maid Godly and have her wear nothing but a fig leaf? (Laughter and applause.) Can we make these natives clean if we do not sell them soap? Mr. Bryan says we are doing all these things without the consent of the governed. Indian Territory and Oklahoma were taken in in the Louisiana purchase and they are still territories. They have been governed for ninety-soven years without the consent of the governed. This talk of governing without the consent of the governed. At Kenwood Place-Two Person Narrowly Escaped Death.

From an unknown cause, yesterday norning about 4 o'clock, fire destroyed the stables at the rear of the house in Kenwood Place, near Echo Point, owned by O. C. Dewey, and occupied by Mr. Harry C. Whitaker.

Living in the stable building, on the upper floor were the coachman and his wife. The latter was awakened by the smoke, and they escaped by a narrow margin from the burning building, which was entirely destroyed. The horses, carriages and harness were gotten out, but a dog was burned.

The loss is about \$1,500, with \$1,200 insurance, place through the Stalnaker agency in the German Fire Insurance Company, of Wheeling.
